- Manages Multiple Warehouse Locations

### Shipping Functionality

- Compliance labeling and ASNs
- Estimates shipment cube and weight
- Packing slips, carton content labels, N/M labels on demand
- Prints compliant freight labels
- Shipping labels produced at the start of the picking process
- Multi-carrier shipping module provides rate shopping, BOL and manifests

### Customer Service

- Ad hoc SQL reporting
- Customer lists with shipping history
- Track and report incidents by order, client, customer, product, buyer, vendor
- Web order entry and catalog management tools

PickPro WMS

# PickPro WMS

Warehouse Management System v. 7.0

## Technical Data Sheet

Light directed processing of up to 24 orders per Batch in ASRS

Bin assignment with reach codes and size codes

Carton Picking and Pick by Case

Concurrent kitting, replenishment & picking

Customer specific labeling

Directed picking to shipping carton(s)

Forward Picking from fast-flow locations

Product Picking

Product and price ticketing in a variety of formats

Slot management

Wave Picking

Carousels, conveyors, vertical lift modules and pick-to-light

Create product specific "baggie labels"

Expiry date constrained allocation

Fill Rate Management

Group replenishment

Kitting function

Sequential Zone

Simultaneous Zone

Track serial and lot numbers throughout warehouse

Variable length products, e.g. chain or hose

Wild card allocation of serial numbers and lot codes

Multiple pick locations for a product

Assign Orders to Totes, System or User entered

Quick Pick - Allocate Orders "On-the-Fly"

Configure for Pick and Pass or Parallel Pick

Emergency Pick Notifications

Weigh Scale Enabled

Hot Pick by Order, Item, Description, Category, Picture

### Inventory Control Functions

Audited product relocation

Cycle count by date/product/bin location

### Technology

Web based application

MS WINDOWS™ NT

Palm Advantage dbms

Windows XP Professional

Windows 2000

SQL Data

Handheld Terminals

Symbol

MS SQL 2000 or Oracle 8i

Transactions can be imported/exported from and to a Host system via configurable ASCII file formats

Import/Exports are triggered manually or automatically at timed intervals

Internet Remote Support Capability

RF Task Complete Enabled

Touch Screen Monitor Enabled

MS Access

### Other Features

Suspend and resume pick and put away batches

Quickly change from Production to Demo data for operator training

Dynamic Zoning Capabilities

Customizable Help System (Word Document, PDF, Multi Media, HTML, more)

### Modular Design Components

Truck Terminal Module

Handheld Inventory Tracking Module (KANBAN)

Hospital Inventory Tracking Module (Kits)

Floor Stock Control Module

Purchase Order Module

Consolidation Module

Ship Manifesting Module

PickPro ICS

Lite Version

Transaction Based Module
